

Conference Overview

The pre-conference will open the 17th Annual Pacific Northwest Conference featuring keynote and general session workshops and more than 40 exhibitors.

March 7: The Brain Injury Fundamentals Certification course is comprehensive and flexible enough to be incorporated as an organization's on-boarding program for direct care staff, or used as a stand-alone training in healthcare and community facilities. Developed by experienced clinicians and rehabilitation professionals, Brain Injury Fundamentals is an all-new training and certificate program designed to address the unique needs and challenges of those who care for or encounter individuals with brain injury. This includes non-licensed direct care staff persons, facility staff, family members and friends, first responders, and others in the community. The mandatory training course covers essential topics such as: Cognition is Guidelines for interacting and building rapport, Brain injury and behavior, Medical complications, Safe medication management, and Families coping with brain injury

March 8-9 - Two day Certified Brain Injury Specialist (CBIS) class and exam - a voluntary international certification program for both entry-level staff and experienced professionals working in brain injury services. ACBIS provides staff and professionals the opportunity to learn important information about brain injury, to demonstrate their learning in a written examination, and to earn a nationally recognized credential. Certification is not restricted to any one profession or discipline. Rather, it is intended for anyone who delivers services specific to brain injury.

March 8-9 - two days, multiple track Medical Legal - Living with Brain Injury, Stroke and other Neurological Changes: Back to the Future Rewriting You Future will feature: **Keynote Speakers:** Glen Zielinski, DC, DACNB, FACFN-**Functional Neurology Treatment of Traumatic Brain Injuries;** Matt Senn MT-BC/NMT-**Neurologic Music Therapy: Treatment and Clinical Applications for Traumatic Brain Injuries;** Dr. Adam Grove, ND- **Nutrition and Brain Injury Recovery;** . **Conference Speakers** include: Pediatric Issues After a Brain Injury - Cathy Thomas, PhD, ABPdN, TBI – Residential Treatment of Individuals who have experienced brain injury: Treatment challenges and how to work with families. - Karen Campbell, BA Brain Logistics LLC; Memory for Independent Living - Kathy Griffin; TBI – A Focus on Behavior & Strategies -Karen Campbell, BA; Family Medicine: Substance Abuse and Brain Injury and Pain - Andrew Mendenhall, MD; Idaho's Traumatic Brain Injury Program: Five-Year Plan and Preliminary Results - Russell C. Spearman, M. Ed; The Silent Epidemic of TBI's: Listening for Depression & Suicide-Shauna Hahn, PMHNP; Oregon Disabilities Commission; The Do's and Don'ts When Working with Clients with Brain Injury - Timothy Titolo, JD; Float Tanks: The Benefits of Relaxation - Ashkahn Jahromi & Graham Talley; TBI Team - What is it and how we can help you - Melissa McCart, D.Ed and much more.

Learning Objectives

At the completion of the conference, participants will be able to:

1. Implement strategies designed to significantly improve positive outcomes for those living with brain injury and neurological conditions in all communities.
2. Describe the epidemiology of brain injury and its resultant impairments, disability, and psychosocial impact.
3. Integrate new developments in science and medicine into practice for brain injury rehabilitation.
4. Utilize multidisciplinary strategies for the management of psychological and behavioral problems common to brain injury including behavior management.
5. Identify neurophysiological mechanisms involved in brain plasticity and their potential application to improving practice and service provision across rehabilitation disciplines.
6. Summarize recent brain injury-related research with corresponding practical application and best practices.
7. Identify clinical management practices, specifically new strategies in behavioral management, prevention, diagnosis, and treatment guidelines.
8. Understand health care delivery trends and their impact on long-term brain injury and neurological conditions management, acute care, and what that can/will mean to your business.
9. Analyze past brain injury and neurological conditions - related interventions and weigh their value in today's world-what is working.
10. To understand brain injury as a chronic disease which affects the person throughout their lifetime
11. To consider co-morbid conditions which affect the process of aging with a brain injury
12. Discuss the life long, post-acute rehabilitation needs of individuals with traumatic brain injuries and the importance of developing long term care plans.
13. Improve quality of life for brain injury survivors and their caregivers by connecting them with community resources.
14. Create networking opportunities and build partnerships with key brain injury researchers, clinicians, and prevention professionals.

All Sessions will be recorded and available for purchase at the conference by BIAOR Recording.
