

## Brain Injury Alliance of Oregon

Brain injury is a growing fact as well as a growing threat. High speed vehicles, extreme sports, and modern warfare are just some of the contributors to this life-changing epidemic. The medical and scientific communities are scrambling to keep pace with the needs. Coming alongside this daunting challenge is what the Brain Injury Alliance of Oregon (BIAOR) is all about. Our mission statement is more than a nice idea—it rises to become a community responsibility—“Helping to create a better future through brain injury prevention, research, education, and advocacy.”

There is no single-handed solution to this huge need. It calls for combined effort. You too can help by coming alongside the BIAOR. **Together we can make a difference.** Please take time to renew or join by completing and submitting the form on the back of this letter.

Here are some of the activities of BIAOR:

- Promote/pass legislation to help brain injury survivors both in Oregon and nationally.
- Educate professionals, businesses and families about brain injury.
- Sent out over 500 packets of information and resources including DVD's each year
- Hold bike rodeos including giving over 1000 bike and skateboard helmets each year
- Produce a quarterly newsletter, *The Headliner*, with a distribution of over 6000
- Provide expert training to professionals including Certified Brain Injury Specialist
- Build awareness through information booths at over 250 events each year
- Work toward improving the lives of individuals with brain injury and their families.
  - Through support groups – 62 statewide
  - Provide neuro resource facilitation to over 5000 callers each year
- Work with the Oregon Reintegration Team to support and offer assistance to military and veterans with brain injuries and their families.

Thank you for your participation. BIAOR is funded entirely by donations. BIAOR has no state or federal funding. **We cannot do this without your help and support.**
